

MEETING AGENDA

Meeting #12

Prepared by: Ysabel Dungca
6th of October 2020

AGENDA

A RECAP OF EVERYONE'S PROGRESS

- Tom was unable to make it to this meeting due to an issue arising in his personal life.
- Belle spent more time refining and fleshing out the prototype of the user-end side, and will start working on the staff back-end side of things, as well as doing some parts of the report.
- The other members kept making more progress on the content of the report, adding more writing to the more substantial portions of the report like the "Plans and Progress" section.
- We also briefly discussed our Assignment 2 results.

A DISCUSSION OF OUR PRESENTATION

- We discussed briefly what we should do for our presentation, which will mostly involve showcasing the application through the use of scenarios.
- Each scenario, which can be assigned to each person, will be linked to a feature of the application that will be run through.
- An infomercial could also be done, and maybe using humour to showcase the application.
